

M&A Mobility Carts

M&A Mobility Carts

The new revolution in clinical workflow optimization is now available for a fraction of the cost of traditional work stations. Designed through real-life testing in healthcare settings, the M&A Mobility Futura Workstation is equipped with a Lithium Iron Phosphate power system that provides longer battery life and shorter recharge. This enables clinicians to keep the cart with them for an entire shift for greater efficiency. Whether you're implementing new carts or replacing old carts, the M&A Mobility Futura workstation will improve your workflow while maintaining a low cost of ownership.
